American Society of Mechanical Engineers Boiler and Pressure Vessel Code Meetings

During the week of February 11, 2013, the staff participated in the American Society of Mechanical Engineers Boiler and Pressure Vessel Code committee meetings in Los Angeles, California. During these meetings, staff interfaced with vendor representatives and industry members to discuss questions, issues, and requirements associated with the design, fabrication, and inspection of pressure retaining components associated with nuclear plants.

Availability of License Renewal Application for Sequoyah Nuclear Plant

On February 20, 2013, the application requesting renewal of the operating licenses for Sequoyah Nuclear Plant was made available at the Web site <http://www.nrc.gov/reactors/operating/licensing/renewal/applications/sequoyah.html>, and in ADAMS under Accession No. ML130240007. This application was initially received on January 15, 2013, from Tennessee Valley Authority, requesting the renewal of the operating licenses for Sequoyah Nuclear Plant, Units 1 and 2, for an additional 20 years beyond the current 40-year term. The current operating license for Unit 1 expires at midnight on September 17, 2020. The current operating license for Unit 2 expires at midnight on September 15, 2021. The staff tentatively plans to hold a public information session near the plant in April 2013 to provide an overview of the license renewal process and to solicit public comments on the scope of the staff's environmental review.

Office of Public Affairs (OPA)
Items of Interest
Week Ending February 22, 2013

OPA received significant media inquiries on the following:

A regulatory conference regarding a white finding in emergency preparedness at Prairie Island plant (WI)

Vermont Yankee plant's (VT) intention to refuel this spring

The change in Performance Indicators for the Nine Mile Point 1 (NY) and James A. Fitzpatrick (NY) plants from "Green" to "White"

The public meeting regarding concrete degradation at the Seabrook plant (NH)

Palisades plant (MI) shut down as a result of a leak from the component cooling water system

The contract employee fatality that occurred at Perry Plant (OH)

U.S. Court of Appeals for the D.C. Circuit's decision regarding Shieldalloy's challenge to NRC transferring regulatory oversight to the state of New Jersey

Other Public Affairs Items:

OPA supported the following activities:

- Interview with WSJM, Kalamazoo Gazette, Platts, and the News Herald responding to the leak that caused Palisade plant's (MI) shut down
- Interview with WGOG-FM (SC) about the Oconee plant (SC) staff meeting discussing their flood evaluation report
- An interview with the Office of Nuclear Reactor Regulation staff and Science magazine regarding a Department of Energy project to increase the level of detail in the computer models of reactor system operation
