Station Blackout Mitigation Strategies; 10 CFR Parts 50 and 52 (RIN 3150-AJ08; NRC-2011-0299)

On July 23, 2013, the NRC published a document in the *Federal Register* ([78 FR 44035](#)) issuing a regulatory basis to support the potential amendment of its regulations concerning nuclear power plant licensees' and applicants' station blackout mitigation strategies. The issuance of the regulatory basis document is one of the actions stemming from the NRC's lessons-learned efforts associated with the March 2011 Fukushima Daiichi Nuclear Power Plant accident in Japan. The NRC is not soliciting public comments on the regulatory basis.

Petition for Rulemaking Submitted by the Natural Resources Defense Council, Inc.; Consideration in the Rulemaking Process; 10 CFR Part 50 (NRC-2011-0189; PRM-50-100)

On July 23, 2013, the NRC published a document in the *Federal Register* ([78 FR 44034](#)) that informs the public that it will consider the issues raised in a petition for rulemaking (PRM) submitted by the Natural Resources Defense Council (the petitioner) in the NRC's rulemaking process. The petitioner requests that the NRC amend its regulations to require each operating and new reactor licensee to improve spent nuclear fuel safety. The NRC determined that the issues raised in the PRM are appropriate for consideration and will consider them in the ongoing "Station Blackout Mitigation Strategies" rulemaking ([RIN 3150-AJ08; NRC-2011-0299](#)). The docket on the petition was closed on July 23, 2013.

Unified Agenda of Federal Regulatory and Deregulatory Actions; Semiannual Regulatory Agenda; 10 CFR Chapter 1 (NRC-2013-0076)

On July 23, 2013, the NRC published its Semiannual Regulatory Agenda (the Agenda) in the *Federal Register* ([78 FR 44404](#)) in accordance with Public Law 96-354, "The Regulatory Flexibility Act," and Executive Order 12866, "Regulatory Planning and Review." The Agenda is a compilation of all rules on which the NRC has recently completed action or has proposed or is considering action. The issuance updates any actions occurring on rules since publication of the last semiannual agenda on January 8, 2013 ([78 FR 1704](#)).

Freedom of Information Act (FOIA) and Privacy Act (PA) Requests and Appeals Received
 During the Period of July 26, 2013 – August 1, 2013:

Records related to Order EA-12-051	FOIA/PA-2013-0303
Records related to Order EA-12-049	FOIA/PA-2013-0304
Records related to Seismic Walkdowns (CGS Docket No. 50-397)	FOIA/PA-2013-0305
All information from 02/01/2011 to 07/25/13, regarding investigative interview involving Cooper Nuclear Station and named individual	FOIA/PA-2013-0306
APPEAL: Denial of Information (FOIA/PA-2013-0261)	FOIA/PA-2013-0021A
APPEAL: Lack of Response (FOIA/PA-2013-0262)	FOIA/PA-2013-0022A
Copy of letter from NRC to Public Service Enterprise Group Inc.(PSEG), week of July 22, 2013, regarding termination of a former G4S security manager	FOIA/PA-2013-0307
Any and all records relating to permit applications and issuance, or correspondence relating to use of depleted uranium by the oil and gas industry	FOIA/PA-2013-0308
AMENDED: Records related to meetings with Southern California Edison regarding the replacement steam generators at San Onofre Nuclear Generating Station (SONGS) from November 8, 2012 to present	FOIA/PA-2013-0309
All records pertaining to case #RI-2010-A-0102	FOIA/PA-2013-0310
NRC records pertaining to complaints by name individual against Day & Zimmerman NPS, Inc., DZ Atlantic, and Dominion between November 1, 2010 and present	FOIA/PA-2013-0311
APPEAL: Lack of Response (FOIA/PA-2013-0264)	FOIA/PA-2013-0023A
All documents pertaining to allegation RIV-2012-A-0074	FOIA/PA-2013-0312
Any correspondence to NRC from or on behalf of Joni Ernst between 01/01/2005 and 07/15/2013	FOIA/PA-2013-0313

Week Ending July 26, 2013

Denial of Licensing Request by Aerotest

On July 24, 2013, staff denied a request from Aerotest Operations, Inc. (Aerotest), and Nuclear Labyrinth, LLC, to transfer the license of the Aerotest Radiography and Research Reactor (ARRR) to Nuclear Labyrinth based on the transferee's failure to meet the NRC's financial qualification requirements. Aerotest, the current licensee for the facility, had previously submitted an application for renewal of the facility's operating license. Because of ongoing foreign ownership and control issues with Aerotest, the staff also denied Aerotest's license renewal application and issued an order requiring Aerotest to cease operation of ARRR, submit an updated decommissioning plan that contains a decommissioning funding plan, and submit a fuel management plan that describes the means for funding the management of the fuel until permanent disposal.
