Mailing list for Public Affairs Managers or Communication Directors at Nuclear Power Plants	FOIA/PA-2014-0064
License Amendment request 11-05 from Diablo Canyon Units 1 and 2, all records	FOIA/PA-2014-0065
Any records of FOIA requests made to NRC requesting public information on James Lee Witt	FOIA/PA-2014-0066
APPEAL: Denial of Information (FOIA/PA-2013-0277)	FOIA/PA-2014-0005A

Office of Nuclear Reactor Regulation (NRR)
Items of Interest
Week Ending November 29, 2013

ROP Monthly Public Meeting

On November 20, 2013, the staff held the Reactor Oversight Process (ROP) monthly public meeting. Discussions included updates on operational support, inspection, assessment topics, and possible changes to the performance indicator guidance. The staff and industry representatives also discussed Frequently Asked Questions (FAQs).

Public Meeting on ROP Enhancements to the Assessment Program

On November 21, 2013, the staff held a public meeting on ROP enhancements to the assessment program. The staff and industry representatives discussed the goal and scope of the project. The discussed topics included effectiveness of substantive cross-cutting issues (SCCIs), timeliness of supplemental inspections, ROP Action Matrix column criteria, and the significance determination process (SDP).

Issuance of South Texas Project Final Environmental Impact Statement

On November 21, 2013, the staff issued the Final Supplement 48 to NUREG-1437, "Generic Environmental Impact Statement for License Renewal of Nuclear Plants, Regarding South Texas Project." The final supplemental environmental impact statement (FSEIS) represents the completion of the staff's environmental review of the license renewal application submitted by South Texas Project Nuclear Operating Company. As documented in the FSEIS, the staff determined that the adverse environmental impacts of license renewal for South Texas Project are not so great that preserving the option of license renewal for energy-planning decision-makers would be unreasonable.

International Electrotechnical Commission (IEC) Meeting in Stockholm

From November 25 - 27, 2013, the staff attended an IEC meeting in Stockholm, Sweden. This is a Committee on the Safety of Nuclear Installations (CSNI) effort with IEC to develop a standard for improving and standardizing the robustness of offsite power systems. The purpose of this trip was to provide U.S. experience and improvements made after the 2003 power blackout in Northeast USA and issuance of NRC Generic Letter 2006-02.

**Office of the Secretary (SECY)
Items of Interest
Week Ending November 29, 2013**

Document Released to Public	Date	Subject
Information Papers		
1. SECY-13-0118	11/7/13	Annual Update of the Risk-Informed Activities Public Web Site

Commission Correspondence

1. Letter to Senator Edward Markey, dated November 20, 2013, responds to his letter concerning the agency's draft spent fuel pool study issued in June 2013.
2. Letter to Sarah Roberts, Michigan State Representative, 18th District, and Hoon-Yung Hopgood, Michigan State Senator, 8th District, dated November 20, 2013, responds to letter regarding the NRC to Oppose Ontario Power Generation's proposal for a Deep Geologic Repository.
3. Letter to Congress, dated November 19, 2013, provides monthly status report on the NRC activities and expenditure of unobligated carryover funds appropriated from the Nuclear Waste Fund.

Federal Register Notices Issued

1. Request to Amend a License to Export High-Enriched Uranium, U.S. Department of Energy, National Nuclear Security Administration, XSNM3729/01 11006053.
