

Connecticut Yankee LTP Feedback

Kenneth J. Heider
October 7, 2003

Connecticut Yankee

LTP Review Duration Very Long

- Greater Than Two Year Approval Process
 - Pre-Application Meetings and Adequacy Review Did Not Uncover Concerns
 - Extensive Information Requests to Resolve Staff Site Characterization and Dose Modeling Concerns
- Second Review Team Improved Performance
 - Weekly Conference Calls Resolved Issues
 - Informal Review of Proposed Revisions Shortened Approval Time
- ASLB Process Duration Also Greater Than 2.5 Years
- Improvements Being Implemented for Yankee Rowe LTP

NRC Public Involvement Improves License Termination Process

- Presentations at Community Meetings
 - Region I Inspectors Provide Frequent Presentations
 - Available to Answer Public Questions
- CY – NRC Staff Meetings Open to Public
 - Selected Meetings Held in Connecticut
 - Telephone Link Available for Region and Headquarter Meetings
- Staff Available to Public Via Telephone

NRC License Termination Is Only The First Step...

- Connecticut Department of Environmental Protection
 - 19 mrem/yr Total Effective Dose Equivalent
 - Remediation Standard Regulations for Groundwater and Soil
- Environmental Protection Agency
 - EPA – NRC Memorandum of Understanding
 - RCRA Corrective Action Program
