

**ORGANIZATION OF
AGREEMENT STATES (OAS)
PERSPECTIVE ON SOURCE
SECURITY**

July 17, 2014

Mike Welling, OAS Chair

- **OAS has worked with the NRC since 2003 on security enhancements beginning with Increased Control license conditions and ending with Part 37.**
- **OAS believes it is critical to integrate security into our public health mission.**
- **Agreement States currently inspect over 1,400 IC licensees.**

- **OAS believes the current security requirements provide reasonable assurance for the protection of radioactive material.**
- **States highly value the continuing education NRC provides to security inspectors.**
