

April 28, 1998

MEMORANDUM L. Joseph Callan  
TO: Executive Director for Operations  
FROM: John C. Hoyle, Secretary /s/  
SUBJECT: STAFF REQUIREMENTS - SECY-98-038 - HANFORD TANK WASTE REMEDIATION SYSTEM  
PRIVATIZATION CO-LOCATED WORKER STANDARDS

The Commission has approved the staff's interpretation with respect to co-located workers at the Hanford Site and concurs in the plans to inform DOE by letter that the co-located workers would be treated as members of the public if the NRC were to assume regulatory jurisdiction of the Hanford tank waste remediation system privatization.

The staff should also send a letter to DOE's Fissile Materials Disposition Office to supplement the NRC's March 6, 1998, letter on the collocation of mixed-oxide fuel fabrication operations with non-licensed operations.
