MEMORANDUM TO: William D. Travers  
Executive Director for Operations

Karen D. Cyr  
General Counsel

FROM: Annette L. Vietti-Cook, Secretary /s/

SUBJECT: STAFF REQUIREMENTS - SECY-99-193 - COST ESTIMATES FOR COMPLETION OF FORMERLY  
TERMINATED NRC LICENSED SITES PROGRAM

The Commission has approved of the staff's recommendation to submit the General Fund appropriation, described in SECY-99-193, to the Office of Management and Budget as part of the FY 2001 budget request.

The stakeholder views concerning the use of the General Fund appropriation for this program should be included as a supplement to the legislative package proposal to ensure that OMB and Congress are aware of our stakeholder concerns and support.

Modify Figure G.1, criteria 4, so that it reads 'Less than 25 mrem/yr ~~standard~~ **limit** applied?'

The staff should provide a copy of SECY-99-193 and the Commission's direction on it to the commenters, since there were relatively few of them, in lieu of issuing a second *Federal Register* notice.

SECY-99-193 does not set forth or analyze the issues that would need to be considered before the Commission could propose legislation aimed at facilitating the cleanup of sites in non-Agreement States. The staff needs to explore various options to make funds available to complete remediation at those few sites where adequate funding is not available and when the site would not qualify for cleanup by the Environmental Protection Agency. Accordingly, the staff should develop a new paper on these issues, to include funding options, for the Commission's consideration.
