I. COMSECY-96-001 - Draft OGC Order in Response to Citizens Awareness Network in Matter of Yankee Atomic Electric Company

The Commission, by a 2-0 vote<sup>1</sup>, approved an order that declines to modify the staff's decision since there has been no showing that would warrant emergency relief. Commissioner Dicus abstained.

The order also directs the staff to address in the Director's decision to be issued on February 22, the arguments advanced by the petitioners in their February 9 motion which are related to their original motion of January 17. New issues raised in the motion should be addressed in a supplemental Director's decision.

The Commission also directs the licensee to provide the NRC staff and petitioners with at least two weeks advance notice before it engages in any of the seven new activities described on page 13 of the February 9, 1996, motion.

(Subsequently, on February 15, 1996, the Secretary signed the Order.)

<sup>1</sup> Commissioner Dicus abstained in this matter but was present at the meeting for the purpose of establishing a quorum required for Commission action.
