COMMISSIONERS' CONFERENCE ROOM, ONE WHITE FLINT
NORTH, ROCKVILLE, MARYLAND (OPEN TO PUBLIC
ATTENDANCE)

The Commission was briefed by the NRC staff on the business process reengineering (BPR) project in the Office of Nuclear Materials Safety and Safeguards.

The Commissioners each requested that the staff arrange for them to visit the BPR laboratory.
(EDO) (SECY Suspense: 8/2/96)

The staff should review the SRM on SECY-95-114 dated June 16, 1995, and fold those requirements into the lessons learned. A paper should be provided to the Commission which systematically addresses each of the directives in the June 16, 1995 SRM and also addresses the revised schedules, goals, metrics, milestones, training plans, project scope, and interactions with Agreement States.
(EDO) (SECY Suspense: 9/20/96)

Another briefing should be scheduled on this topic in about six months to provide a better understanding of how the initial trial of the pilot program is proceeding.
