The Commission approved a Memorandum and Order which reviews the Licensing Board's decision insofar as it admitted a contention filed by Georgians Against Nuclear Energy (GANE) under the National Environmental Policy Act (NEPA) based on the risk of terrorist attacks. The Memorandum and Order reverses the Board's decision to admit GANE's terrorism contention.

**II. SECY-02-0118 - Private Fuel Storage, L.L.C. (Independent Spent Fuel Storage Installation), CLI-02-03, 55 NRC 155 (2002) (Accepting Referred Ruling Denying Admission of Utah's Terrorism Contention in LBP-01-37, 54 NRC 476 (2001))**

The Memorandum and Order declines to require a NEPA review of the impact of terrorism at the proposed PFS facility and affirms the Licensing Board's decision rejecting Utah's late-filed terrorism contention.

The Commission approved a Memorandum and Order which reviews the terrorism contention related to Dominion Nuclear Connecticut, Inc.'s application for a license amendment to increase the storage capacity of its spent fuel pool. The Memorandum and Order affirms the Licensing Board's decision to reject the terrorism contention proposed by the interveners.

**V. SECY-02-0157 - Duke Energy Corporation (McGuire Nuclear Station, Units 1 & 2, Catawba Nuclear Station, Units 1 & 2)**

The Commission approved a Memorandum and Order responding to Duke Energy Corporation's motion for clarification of CLI-02-17 and addressing a Licensing Board certified question to the Commission. The Memorandum and Order clarifies the issue of severe accident mitigation analyses and remands to the Board several additional issues related to this matter.
