SECY-11-0052 – EnergySolutions (Radioactive Waste Import/Export) EnergySolutions’  
Applications for Low-Level Radioactive Waste Import and Export Licenses

The Commission approved a Memorandum and Order responding to two hearing requests and a petition for leave to intervene on EnergySolutions’ applications requesting an NRC license to import low-level radioactive waste from Germany for processing and an accompanying export license to return the resulting hearth ash and non-conforming materials to Germany. The Memorandum and Order denies the hearing requests and petition to intervene and directs the Office of International Programs to issue the import and export licenses.

(Subsequently, on June 6, 2011, the Secretary signed the Memorandum and Order.)
