

February 4, 2013

The Honorable Tom Cotton
United States House of Representatives
Washington, D.C. 20515

Dear Congressman Cotton:

I write to congratulate you on your election to the United States House of Representatives and to introduce you to the important regulatory responsibilities performed by the U.S. Nuclear Regulatory Commission (NRC).

As you may know, the NRC is an independent agency established by the Energy Reorganization Act of 1974 to regulate civilian nuclear power and use of nuclear materials. Our mission is to protect the public health and safety and the environment, and to maintain the common defense and security. We work to ensure the safe operation of the nation's 104 operating commercial nuclear reactors through licensing, inspection, and performance assessments. Additionally, the NRC oversees the use of nuclear materials by over 22,000 licensees at thousands of hospitals, universities, and other locations around the country.

Enclosed is a copy of *NRC's 2012-2013 Information Digest*. Updated annually, this publication describes the agency's regulatory responsibilities and licensing activities, and provides general information on nuclear-related topics. Many offices on the Hill have found this digest to be a useful reference. I hope that it is helpful to you and your staff.

If a briefing from our staff about NRC's regulatory responsibilities would be of interest, please have your staff contact Rebecca L. Schmidt, Director, Office of Congressional Affairs at 301-415-1776 or Rebecca.Schmidt@nrc.gov.

Sincerely,

/RA/

Allison M. Macfarlane

The Honorable Tammy Baldwin
United States Senate
Washington, D.C. 20510

Dear Senator Baldwin:

I write to congratulate you on your election to the United States Senate and to introduce you to the important regulatory responsibilities performed by the U.S. Nuclear Regulatory Commission (NRC).

As you may know, the NRC is an independent agency established by the Energy Reorganization Act of 1974 to regulate civilian nuclear power and use of nuclear materials. Our mission is to protect the public health and safety and the environment, and to maintain the common defense and security. We work to ensure the safe operation of the nation's 104 operating commercial nuclear reactors through licensing, inspection, and performance assessments. Additionally, the NRC oversees the use of nuclear materials by over 22,000 licensees at thousands of hospitals, universities, and other locations around the country.

Enclosed is a copy of *NRC's 2012-2013 Information Digest*. Updated annually, this publication describes the agency's regulatory responsibilities and licensing activities, and provides general information on nuclear-related topics. Many offices on the Hill have found this digest to be a useful reference. I hope that it is helpful to you and your staff.

If a briefing from our staff about NRC's regulatory responsibilities would be of interest, please have your staff contact Rebecca L. Schmidt, Director, Office of Congressional Affairs at 301-415-1776 or Rebecca.Schmidt@nrc.gov.

Sincerely,

/RA/
