

The following Information Assessment Team Advisory (IATA) is not publically available, as it is “Official Use Only – Security Related Information” and is exempt from public disclosure in accordance with the U.S. Nuclear Regulatory Commission (NRC) Sensitive Unclassified Non-Safeguards Information (SUNSI) Handling Requirements.

IATA-02-08 – “Change in Threat Condition Level from High to Elevated”

The NRC issued IATA-02-08 on September 24, 2002, to all NRC affected licensees: Independent Spent Fuel Storage Installations; Category III Fuel Cycle Facilities; General Transportation; and Materials Licensees.

These licensees were provided an update on the current threat environment and requested to maintain alertness to security-related matters.
