

The following Information Assessment Team Advisory (IATA) is not publically available, as it is "Official Use Only – Security Related Information" and is exempt from public disclosure in accordance with the U.S. Nuclear Regulatory Commission (NRC) Sensitive Unclassified Non-Safeguards Information (SUNSI) Handling Requirements.

IATA-02-09 – "Change in Threat Condition Level from High to Elevated"

The NRC issued IATA-02-09 on September 24, 2002, to all NRC affected licensees: Power reactors; Decommissioning Reactors; Non-power Reactors; Decommissioning Sites; Category 1 Fuel Cycle Facilities; Conversion Facilities; Independent Spent Fuel Storage Installations; General Transportation; and Gaseous Diffusion Plants. It was also provided to all Agreement State and Non-Agreement State Radiation Control Program Directors and State Liaison Officers for dissemination to their licensees as appropriate.

These licensees were provided an update on the current threat environment and requested to maintain alertness to security-related matters.
