

The following Information Assessment Team Advisory (IATA) is not publically available, as it is "Official Use Only – Security Related Information" and is exempt from public disclosure in accordance with the U.S. Nuclear Regulatory Commission (NRC) Sensitive Unclassified Non-Safeguards Information (SUNSI) Handling Requirements.

IATA-03-14 – "Change In Threat Condition Level – Decrease From High to Elevated"

The NRC issued IATA-03-14 on April 16, 2003, to all NRC affected licensees: Large materials licensees (NRC and Agreement State) who possess, ship or receive certain quantities of radioactive materials.

These licensees were provided an update on the current threat environment and requested to maintain alertness to security-related matters.
