

On November 8, 2018, the U.S. Nuclear Regulatory Commission (NRC) issued Information Assessment Team Advisory (IATA) IA-18-01, "Situational Awareness – Threats Made Against Certain Categories of U.S. Nuclear Facilities" to all Operating Power Reactors; Category-I Fuel Cycle Facilities; NON-Power Reactors; and Independent Spent Fuel Storage Installations. Note that the IATA contains physical security information and is designated "Official Use Only – Security-Related Information." Therefore, the referenced IATA is being withheld from public disclosure in accordance with NRC Sensitive Unclassified Non-Safeguards Information (SUNSI) handling requirements.
