

The following Security Advisory (SA) (dated March 17, 2003) is not available because it is marked "Official Use Only – Security-Related Information" and is exempted from public disclosure in accordance with 10 CFR 2.390.

SA 03-01, "Increased Security For Radioactive Sources"

In 2003, the Nuclear Regulatory Commission (NRC) issued an advisory which recommended that selected NRC and Agreement State licensees (licensees) who may have possessed radioactive materials consider implementing certain security measures. Licensees were additionally asked to review the need for and maintain certain security measures already in place.

The NRC has issued SA 03-0A to materials licensees (NRC and agreement states) who possess, use, ship or receive certain quantities of radioactive materials. Note that the security advisory contains physical security information and is, therefore, being withheld from public disclosure in accordance with 10 CFR 2.390.
