SA-04-01, "National Special Security Events And Special Events In 2004" dated May 28, 2004

In 2004, DHS had designated a National Special Security Event (NSSE). Therefore, the NRC recommended that selected NRC and Agreement State licensees (licensees) who may possess radioactive materials to consider implementing certain security measures. Licensees were asked to review the need for and maintain certain security measures.

The Nuclear Regulatory Commission (NRC) has issued SA-04-01 to licensees (NRC And Agreement State) who ship SNM, SNF, or certain quantities of radioactive materials. Note that the security advisory contains physical security information and is, therefore, being withheld from public disclosure in accordance with 10 CFR 2.390.
