

The following Security Advisory (SA) is not available because it is marked "Official Use Only – Security-Related Information" and is exempted from public disclosure in accordance with 10 CFR 2.390.

SA-04-12, "Considerations in Controlling Digital-Photo-Producing Devices in Protected and Vital Areas" dated October 14, 2004

In 2004, the NRC issued an advisory with regards to controlling digital-photograph-producing devices in certain areas of nuclear power plants. Therefore, the NRC recommended that selected NRC and Agreement State licensees (including nuclear power plants) maintain heightened vigilance for potential security threats.

The Nuclear regulatory commission (NRC) has issued SA-04-12 to operating nuclear power reactors. Note that the security advisory contains physical security information and is, therefore, being withheld from public disclosure in accordance with 10 CFR 2.390.
