

The following Security Advisory (SA) is not available because it is marked "Official Use Only – Security-Related Information/Safeguards Information" and is exempted from public disclosure in accordance with 10 CFR 2.390.

SA-05-02, "Safeguards Advisory For Operating Power Reactors" dated January 26, 2005

In 2005, the NRC released a statement to selected NRC and Agreement State licensees who may possess radioactive materials in addition to NRC licensed nuclear power plants to maintain heightened vigilance for potential security threats in accordance with 10 CFR 73.1 and NRC Orders.

The Nuclear Regulatory Commission (NRC) has issued SA-05-02 to certain large materials licensees (NRC and agreement state) who possess, use, ship or receive high-risk radioactive materials. Note that the security advisory contains physical security information and is, therefore, being withheld from public disclosure in accordance with 10 CFR 2.390.
