

The following Security Advisory (SA) is not available because it is marked "Official Use Only – Security-Related Information/Safeguards Information" and is exempted from public disclosure in accordance with 10 CFR 2.390.

SA-05-03, "NATIONAL SPECIAL SECURITY EVENT FOR THE PRESIDENTIAL STATE OF THE UNION ADDRESS IN THE WASHINGTON, DC, AREA" DATED JANUARY 28, 2005

In 2005, DHS had designated the Presidential State of the Union Address as a National Special Security Event. Therefore, the NRC had recommended that selected NRC and Agreement State licensees (licensees) who may have possessed radioactive materials consider implementing certain security measures. In lieu of The State of the Union Address (January 31 - February 3, 2005), licensees were asked to review the need for and maintain certain security measures.

The Nuclear Regulatory Commission (NRC) has issued SA-05-03- to licensees (NRC and agreement state) who ship SNM, SNF, or certain quantities of radioactive material. Note that the security advisory contains physical security information and is, therefore, being withheld from public disclosure in accordance with 10 CFR 2.390.
