

The following Security Advisory (SA) is not available because it is marked "Official Use Only – Security-Related Information" and is exempted from public disclosure in accordance with 10 CFR 2.390.

SA-05-07, "Capabilities of Explosive Detection Equipment for Personnel, Packages and Materials at the Protected Area Access Point(s)." dated May 18, 2005

This advisory had been provided to assist facility managers and other security personnel responsible for protecting NRC-licensed facilities and radioactive materials when implementing explosive detection requirements for personnel, packages, and materials.

The Nuclear Regulatory Commission (NRC) has issued SA-05-07 to power reactors and category I fuel cycle facilities. Note that the security advisory contains physical security information and is, therefore, being withheld from public disclosure in accordance with 10 CFR 2.390.
