

The following Security Advisory (SA) is not available because it is marked "Official Use Only – Security-Related Information" and is exempted from public disclosure in accordance with 10 CFR 2.390.

SA-2009-07, "THE PITTSBURGH SUMMIT 2009"

In 2009, DHS designated the Pittsburgh Summit (G-20 Global Financial Summit), held on September 24-25, 2009, as a National Special Security Event (NSSE). Therefore, the Nuclear Regulatory Commission (NRC) recommended that certain licensees maintain heightened vigilance for potential security threats during the event.

The NRC issued SA-2009-07 to licensees (NRC and Agreement State) who possess, use, ship, or receive radioactive materials equal to or exceeding the transportation quantities of concern. Note, the SA contains physical security information and is, therefore, being withheld from public disclosure in accordance with 10 CFR 2.390.
