

On August 4, 2017, the U.S. Nuclear Regulatory Commission (NRC) issued Security Advisory (SA) 2017-08, "Reported Cyber Security Threat Against U.S. Nuclear Regulatory Commission Licensees' Business Networks," to all affected Operating Power Reactors including those under construction. Note that the SA contains cyber security information and is designated "Official Use Only – Security-Related Information." Therefore, the referenced SA is being withheld from public disclosure in accordance with NRC Sensitive Unclassified Non-Safeguards Information (SUNSI) handling requirements.
