

On December 6, 2017, the U.S. Nuclear Regulatory Commission (NRC) issued Security Advisory (SA) 2017-12, "Reported Cyber Security Threat Against U.S. Nuclear Regulatory Commission Licensees' Business Networks", to all affected Non-Power Reactors, Fuel Cycle Facilities, Independent Spent Fuel Storage Installations, Part 37 and Part 30 licensees. Note that the SA contains cyber security information and is designated "Official Use Only – Security-Related Information." Therefore, the referenced SA is being withheld from public disclosure in accordance with NRC Sensitive Unclassified Non-Safeguards Information (SUNSI) handling requirements.
