TRANSMITTED:

	<u>Number</u>	<u>Date</u>
	IMC 1245 App C10	08/28/23

TRAINING: No special training is required for any documents issued with this Change Notice.

REMARKS: Operator Experience Smart Sample (OpESS) 2010/01, "Recent Inspection Experience for Components Installed Beyond Vendor Recommended Service Life." This document was deleted from the inspection manual. The content in this OpESS has been incorporated into the focused engineering inspection IP 71111.21N.04, "Age-Related Degradation," that will be performed at all sites as part of the baseline inspection program and its related inspector training materials. The new IP can be re-used during future engineering inspection cycles and training materials are uploaded into TMS for future reference.

IMC 1245 App C10, "Operator Licensing (OL) Examiner Technical Proficiency Training and Qualification Journal." This change updated the addresses of several websites and the names of several NRC divisions and provided additional information regarding how to credit previous experience towards completion of the qualification process.

In addition, the following documents have been designated as Reference Only in the Inspection Manual

IP 71111.19, "Post-Maintenance Testing"
IP 71111.22, "Surveillance Testing"
OpESS 2007/04, "BWR Core Power / Flow Map – supplemental inspection guidance for MC 2515D"
