04/23/24

TRAINING: No special training is required for any documents issued with this Change Notice.

REMARKS: IMC 2562, "Light-Water Reactor Inspection Program for Restart of Reactor Facilities Following Permanent Cessation of Power Operations." Initial Issuance. This IMC was developed for the planned restart of Palisades but has been developed so it can be used for any future operating reactor restart action.

IMC 0610 Appendix G, "Screening and Documentation of Very Low Safety Significance Issue Resolution Process." Initial issuance of the appendix to formalize interim staff guidance for NMSS implementation of the Very Low Safety Significance Issue Resolution Process. See Memo from John W. Lubinski, "Office of Nuclear Material Safety and Safeguards Implementation of Very Low Safety Significance Issue Resolution Process," dated July 3, 2023 (ADAMS Accession No. ML22353A596).
