NRC To Conduct Virtual Public Meeting/Webinar on Special Inspection at San Onofre Nuclear Generating Station

The Nuclear Regulatory Commission will host a virtual public meeting/webinar to discuss a Special Inspection it conducted at the San Onofre Nuclear Generating Station to evaluate an Aug. 3 fuel-loading incident. The San Clemente, Calif., plant is owned by Southern California Edison and permanently shut down in 2013.

The webinar will begin with a presentation by NRC staff. During and following the presentation, the public will have an opportunity to submit written comments and questions via the webinar user interface. The NRC staff will provide participation guidance during the webinar. The public can participate by providing written questions and comments throughout the meeting on Nov. 8, from 2–5 p.m., Central Time.

Interested members of the public should register for the webinar on our [website](#). After registering, a confirmation e-mail will be sent with details for joining the webinar via computer or mobile device. There is also an option to listen via a phone bridge; however, participants must first register for the webinar to obtain the phone bridge number.
