

Annual Reconciliation

- Each year all NSTS licensees must reconcile their physical inventory against their sources in the system
- NRC Regulations - 10 CFR 20.2207(g) or Agreement State equivalent regulations require:
 - That the reconciliation occur in January of each year and the first reconciliation will occur in January 2010
 - The reconciliation process must include resolving any discrepancies between the information in NSTS and the actual inventory
 - By January 31, each licensee must submit confirmation to the NSTS that the data in the system is correct

Annual Reconciliation

- Enhancements to the NSTS will be in place to allow electronic reconciliation capability
- Process will consist of:
 - logging in to the system,
 - viewing your inventory,
 - reconciling the source information, and
 - submitting confirmation of accuracy
- Licensees electing to conduct the reconciliation on paper will be able to do so and copies of the inventory will be provided to the licensees upon request
