

NRC Packing Slip Wizard

Packing Slip Template

Download and Local Installation Instructions

The latest version of the Packing Slip Wizard tool (v 5.0) provides the Applicant the ability to perform this local update function automatically. At times, due to a possible variety of reasons, the Applicant is unable to perform the update. In such cases the tool will issue a message indicating its inability to do so, along with the following instruction to perform the update manually.

It is very likely that when downloading and installing this component of the Packing Slip Wizard on the local workstation, the operator will be required to have "Administrator" privileges to complete these actions.

Instructions

Please confirm that you can download the following file in your browser:

<http://www.nrc.gov/site-help/e-submittals/NRCPackingSlip.xsd>

and proceed to manually install it.
