NRC to Hold Public Webinar to Discuss NRC Website Modernization

ROCKVILLE, Md.—Nuclear Regulatory Commission staff will host a public webinar to hear directly from stakeholders about how they use the NRC public website. Participants will receive a preview of initial planned updates and be able to offer comments to help shape the agency's website redesign efforts.

What: A [public webinar](#) offering an overview of the upcoming redesign of the NRC.gov Public Website.

When: April 22, 2026, 10–11:30 a.m. Eastern time

How to Attend: Participants are encouraged to join using the Microsoft Teams app or web browser to view the full presentation and demonstration of website features. Information on joining the Teams meeting can be found in the meeting notice.

The U.S. Nuclear Regulatory Commission was created as an expert, technical agency to protect public health, safety, and security, and regulate the civilian use of nuclear materials, including enabling the deployment of nuclear power for the benefit of society. Among other responsibilities, the agency issues licenses, conducts inspections, initiates and enforces regulations, and plans for incident response. The NRC is collaborating with interagency partners to implement reforms outlined in new Executive Orders and the ADVANCE Act to streamline agency activities and enhance efficiency.
