NRC to Update Public on Crane Clean Energy Center Restart

KING OF PRUSSIA, PA. — The NRC will hold a [hybrid public meeting](#) on the possible restart of the Crane Clean Energy Center (formerly Three Mile Island Unit 1).

What: NRC and FEMA presentations on environmental, emergency preparedness, and inspection topics.

Where: Kulkarni Theatre, Student Enrichment Center, Penn State Harrisburg,
777 West Harrisburg Pike, Middletown, PA

When: July 28, 6-8:30 p.m.

How: Attend in person or via [Microsoft Teams](#).

The U.S. Nuclear Regulatory Commission was created as an expert, technical agency to protect public health, safety, and security, and regulate the civilian use of nuclear materials, including enabling the deployment of nuclear power for the benefit of society. Among other responsibilities, the agency issues licenses, conducts inspections, initiates and enforces regulations, and plans for incident response. The NRC is collaborating with interagency partners to implement reforms outlined in new Executive Orders and the ADVANCE Act to streamline agency activities and enhance efficiency.
