NRC to Hold Webinars on Proposed Reactor Licensing Modernization

ROCKVILLE, Md. — The U.S. Nuclear Regulatory Commission will hold [webinars](#) on a [proposed rule](#) to modernize reactor licensing, published July 16.

What: NRC staff-led webinars will provide a general introduction and overview of the proposed rule and related implementation activities and respond to participant questions.

When: Aug. 3, 2-3 p.m.; Aug. 5, 9:30-11 a.m.; Aug. 6, 1:30-3 p.m.

How: Participants may attend online via [Microsoft Teams](#).

The U.S. Nuclear Regulatory Commission was created as an expert, technical agency to protect public health, safety, and security, and regulate the civilian use of nuclear materials, including enabling the deployment of nuclear power for the benefit of society. Among other responsibilities, the agency issues licenses, conducts inspections, initiates and enforces regulations, and plans for incident response. The NRC is collaborating with interagency partners to implement reforms outlined in new Executive Orders and the ADVANCE Act to streamline agency activities and enhance efficiency.
