## NRC Advisory Committee on Reactor Safeguards to Fill Open Position

**ROCKVILLE, Md.** — The Nuclear Regulatory Commission is seeking qualified candidates for an open position on its Advisory Committee on Reactor Safeguards. The ACRS is a part-time advisory group that provides independent expert review and advice to the Commission on matters related to the safety of existing and proposed nuclear reactor facilities and on the adequacy of proposed reactor safety standards. The committee has a primary focus on unique and noteworthy safety issues associated with new licensing applications for existing and advanced reactors, regulatory initiatives and the increased utilization of fuels for novel power uprate applications for the operating reactor fleet.

Interested individuals can find candidate criteria and details in the Federal Register [notice](#) published today. Resumes will be accepted until July 30.

Resumes should be sent to [Sandra Walker](#), ACRS, Mail Stop T2B50, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

More information on the ACRS is available on the NRC's [website](#).

*The U.S. Nuclear Regulatory Commission was created as an expert, technical agency to protect public health, safety, and security, and regulate the civilian use of nuclear materials, including enabling the deployment of nuclear power for the benefit of society. Among other responsibilities, the agency issues licenses, conducts inspections, initiates and enforces regulations, and plans for incident response. The NRC is collaborating with interagency partners to implement reforms outlined in new Executive Orders and the ADVANCE Act to streamline agency activities and enhance efficiency.*
