SA-2008-18, "THE 2009 PRE-INAUGURATION EVENTS AND THE PRESIDENTIAL INAUGURATION"

Therefore, the NRC recommended that selected NRC and Agreement State licensees who may possess radioactive materials maintain heightened vigilance for potential security threats.

The Nuclear Regulatory Commission (NRC) has issued Security Advisory (SA)-2008-18 to certain large materials licensees (NRC AND Agreement State) who possess, use, ship or receive high-risk radioactive materials. Note that the Security Advisory contains physical security information and is, therefore, being withheld from public disclosure in accordance with 10 CFR 2.390.
